

## My World - Student worksheet

My Name \_\_\_\_\_

### A. World Continents

Write the name of each continent you can see on the map (if you don't remember move your mouse over the Shidonni map and the continent names will pop up...)

## B. Draw a country in Shidonni

Select any country you like, from all over the world. Find out lots of information about this country: What does it look like? What do the natives of the country look like? Do they have traditional food they like to eat? Which special animals live there?

After you have learnt about the country you chose, you are ready to create a model of it in Shidonni.

- a. Open an empty Shidonni world.

- b. Draw people from this country. Make sure you give them traditional names.

If there are traditional outfits for this country, draw them for your people to dress up in.

- c. Create the background of the country: draw a famous landmark or a typical country view.

- d. Are there any animals that are unique to your country? Draw them!
- e. Draw traditional food to feed your country's people.
